Tanah Merah is 18 minutes (29klms) from Brisbane. Red soil is found across the local area. The [Pacific Motorway](#) borders the suburb and the [Logan Motorway](#) divides it. In the north west Slacks Creek joins the Logan River. It was this area which was the first to be settled by Europeans. On north east border is the [Logan Hyperdome](#). Part of the western boundary follows lower Slacks Creek. The Pintu Drive off-ramp is the designated exit from the M1 for Tanah Merah and nearby is the Bryants Road overpass. The south eastern pocket of the suburb is positioned close to Loganholme State School. The central parts are dominated by a ridge which remains partially vegetated. This area provides habitat for wallabies and koalas. Tansey Park on the river has a boat ramp, playground, and two sports ovals. A small caravan park is located on the Pacific Highway opposite the Hyperdome. Contact Diana Mitchell LERA **0416020202**
